ORDER

Under the terms of this Court's Contempt Order of October 27, 2006, the independent technical consultant firm of Baker Robbins analyzed the computer records and information contained on a computer owned by Lisa Pasbjerg ("Pasbjerg"). Baker Robbins prepared for the Court's *in camera* review a status report summarizing their analysis and findings so that the Court could consider whether "any of Cooper's Confidential Material has been electronically stored, downloaded or otherwise exists . . . and whether any of Cooper's confidential material has been electronically disseminated." (Contempt Order, page 8). Pasbjerg has the results of Baker Robbins' detailed analysis and their report, and has asserted no privilege.

Having reviewed the status report provided by Baker Robbins, the Court ORDERS as follows:

Ms. Pasbjerg and
Baker Robbins is ORDERED to immediately provide to Cooper a copy of the status
report previously filed *in camera* with this Court; and

the parties shall treat the Baker-Robbins report
~~Baker Robbins is ORDERED to immediately provide to Cooper a copy of all computer
records and information found in their analysis of Pasbjerg's computer which is responsive to the
